

GMW Software Distributing Media (PRELIMINARY)

As of March 2021, GMW has moved to a digital delivery mechanism for all the software and product manuals produced by GMW. All customers are encouraged to download the software and manual from GMW web site.

The software and the drivers from GMW business partners will still be shipped the same way as manufacturers do.

If you prefer to receive physical installation media for GMW software, or a hard copy of GMW product manuals, you can request it by contacting GMW. GMW can provide the software/manual either on DVD disk or on USB thumb drive, paper copy of manuals upon request.

The following software can be downloaded from GMW web site:

<https://gmwassociates.box.com/v/GMWPublicSoftware>

- GMW 5971 Reversal Switch Software. Also supporting 5972 magnet control.
- GMW Motion Control Software. For GMW XYZT motion control.
- GMW MRD. For GMW motorized rotating base.
- GMW 3MTS Meter DEMO Software. For Senis 3MTS USB Teslameter.
- GMW Bartington Coil Control.
- GMW 3470HFAC magnet Control.
- GMW 5204 Vector Magnet Control.
- GMW Group3 DTM software.

The following software download link is available using password: **[contact GMW for password]**

<https://gmwassociates.box.com/v/GMWRestrictedSoftware>

- LVPTMPS. LabVIEW based software for SGA power supplies with IEEE-488 interface.
- LVKCMPS. LabVIEW based software for Kepco 400 W BOP power supplies with IEEE-488 interface.
- XXXXXX. LabVIEW based software for Kepco 1kW MG power supplies with IEEE-488 interface.
- GMW CAEN Power Supply DEMO. For CAEN bipolar power supply.

The following software is paid software, download link password available upon request via email or call.

- LVMCTRL. LabVIEW based software for complete closed-loop control of magnet system, power supply, and teslameter (gaussmeter).
